

AccessReal Code

AccessReal Mark

360° BRAND PROTECTION SOLUTION

Photocopy Proof

AccessReal's innovations have been officially recognized and protected by patents.

Scan with Ease

Empower your customers to instantly verify product authenticity with any smartphone.

Support Sustainability

Execute precise and targeted recalls to dramatically reduce inventory loss and disposal fees.

Compact & Compatible

Outperforms traditional 1D barcodes by storing more data in a smaller area.

Seamless Integration

AccessReal's platform is designed to seamlessly integrate with existing infrastructure, all while offering advanced authentication features and comprehensive tracking capabilities.

Customizable Branding

Elevate your brand identity by embedding your logo into the AccessReal Code.

Versatile Design

Integrate the AR marks simultaneously with your traditional tagging technologies to provide robust protection.

Protecting Brands Enhancing Businesses

AccessReal offers brand protection through a powerful, mobile-enabled platform. Consumers can verify product authenticity with a simple scan, while brand owners gain real-time visibility into product provenance and digital impersonation—stopping counterfeit before it harms your brand reputation.

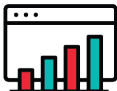

Key Features

Patented Clone-Proof Code
Generates a unique, photocopy-proof code that works on any surface.

Track and Trace
Monitor where codes are scanned to deter grey market activities, improve supply chain visibility, and streamline product recalls.

Real-Time Data and Analytics
Access a comprehensive dashboard featuring organized geographical and business intelligence data to obtain valuable consumer insights.

Product Recall
Identify the ownership information of your affected products and notify consumers, resellers, or distributors directly.

Consumer Engagement
Drive conversions with customized offers, loyalty program integration, and post-purchase care services.

Bank-Grade Security Technology
Trusted by financial institutions and governments, our technology ensures only original products are ever authenticated.

Additional Capabilities:

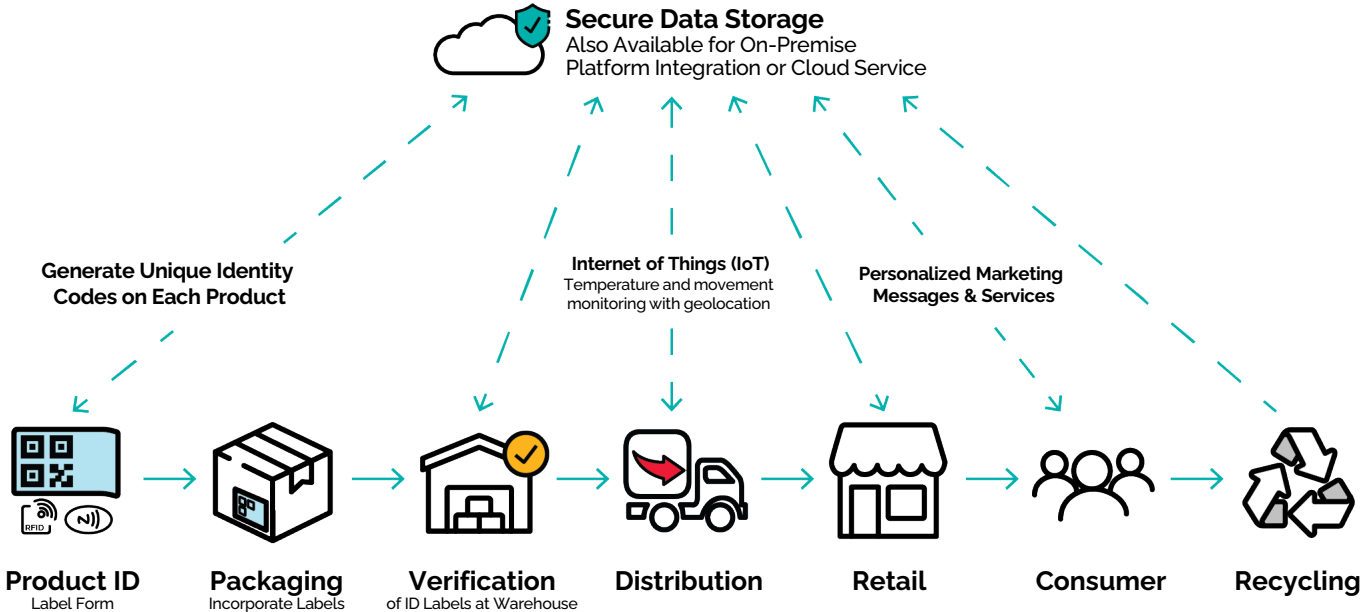

Product Identity Management
Anti-counterfeits
Product Diversion
Real-Time Heat Map Monitoring
Distribution Monitoring

Gifting Management
Warranty Management
Pre and Post Sales Marketing
Personalize Marketing Message
Third Party Solution Integration

Product Traceability Ecosystem Platform
